Weather Probabilities.

For this section partly cloudy tonight. Tuesday rain and colder; light to fresh west-erly winds.

The Electric Railway.

The electric railway company is making arrangements for connecting the road with the new highway bridge past the company has had a force of hands employed in building a temporary trestle from the bridge over the Columbia pike, near Arlington junction, in a direct line across the swamp at Alexan-der Island to the Virginia end of the new Highway bridge, and this trestle will be used by the dinky trains in making the high embankment over the swamp, and the stream which flows through the swamp will be bridged. McMillan & McDermott, the contractors for the building of the embankment, are prepared to start work at once, and have brought a steam shovel to Four Mile run with which to begin the cutting down of the high hill to the west of the railway tracks in order to obtain material for the fill. A double-track railway is to be laid on it. This fill will eliminate the ugly long trestle just north of Arlington Junction and will give a complete double track from Alexandria to Washington.

The work of reducing the grade at Mount Vernon starts at a point about a mile north of the station and a gradual rise is made in order to do away with the steep grade. The trestle over Little Hunting creek will be raised eighteen feet and at Mount Vernon the track will be lowered about four feet. This work when completed will make the grade easy to climb and will save time and wear on the cars.

Among other improvements to be made to the plant of the company is the enlarging of the car barn and machine shop at Four-Mile run. Both buildings are to be enlarged to about twice the present capacity and are to be fitted with w machinery for the quick repair of disabled cars.

The company has acquired about fifty acres of land in the vicinity of Four-Mile run, and it is stated that this will be used for a picnic ground and pleasure park, and that more car equipment will be provided for taking care of increasing traffic. It is also stated that the railway company will run the park as a temperance resort. The improvements being made by the company will, it is stated, cost nearly half a million of

Slight Fire.

of King and Lee streets had their attention attracted by a bright light within. They notified acting Lieutenant Roberts of the police force, who entered the store and found that a gas jet and globe, used tor a drop light, had in some way broke tor a drop light, had in some way broke its fasterings and glided upward nearly to the ceiling. The officer could not turn off the flow of gas, from the fact that there was no key to the pipe, but Mr. Samuel Cuvillier came to the rescue with a pair of pinchers and soon stopped the flow and prevented what might have resulted in a serious fire.

The alarm of fire shortly after six o'clock this morning was caused by the explosion of an oil lamp in a store on the north side of Prince street, between Lee and Union. The damage was slight.

A colored man from Washington who refuses to give his name, is locked up at the station house charged with disorderly conduct and throwing stones at a car. The man boarded an electric train in the county for Washington, but refused to give up his ticket, though he gave Con-ductor Bell 5 cents. When the man had ridden as far as the 5 cents would pay the conductor told him he must pay his fare or get off, whereupon he produced a ticket which he gave the conductor and demanded the return of his The conductor told him that money. The conductor told him that he could not comply with his demand as he had registered the money on the indicator. The man then became so disorderly that he was put off the car near the Long bridge, whereupon he threw several stones at Conductor Bell, striking the car and narrowly missing some of the passengers. The car was stopped and the man was arrested and brought to this city and will be given a hearing

N. B.-Objectionable characters positively Church Work in Fairfax County. The work of restoring old Pohick Church, the Rev. Everard Meade, rector,

is to be continued shortly. Some money is in hand to put in part of the pews. This will be done during the winter. The work has been impeded because a sufficiency of funds has not yet been contributed. As this is one of the oldest and most interesting churches, not only in Virginia, but in the entire United States, being the place of worship of George Washington, two or three miles from Mt. Vernon, surely this money should be forthcoming from the many friends and descendants of those who helped to establish the Church in this land in long ago. As it is intended to make this work of restoration as nearly perfect as possible, it will be un-der the direction of one of the best architects. It is designed to combine the necessary comfort in seating arrangements for the congregation with the antique designs.

Two very interesting missions have recently been held in this (Truro) parish -one by Rev. John R. Matthews, which lasted five days. Bible readings were conducted each morning, and in the evening the forceful add helpful sermons of which this man of God is capable drew large congregations, the mem-bers of which were greatly helped. During the second week in October,

Archdeacon Tyler conducted a m'ssion, dividing his time between Pohick church and Olivet chapel. His solemn prayer services, good sermons and helpful intercourse with the people will result in much good. As the outcome of these missions, a number of candidate are awaiting confirmation .- [Southern Church-Three Negroes Lynched.
